**DETAILED ACTION**

1. Applicant's arguments in relation to the rejections of the last Office action are persuasive and, therefore, the finality of that action is withdrawn.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 and 3-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Vroom et al. (US Patent 5,864,120).

Vroom et al. discloses an appliance and a method of assembling appliances wherein an appliance is provided having a base unit and a plurality of modular control panels which can be interchanged with one another to change the functional capabilities of the appliance et create different appliance models, each individual control panel plugging into a standard interface on the base unit (col. 1, lines 12-67, col. 2, lines 1-3 and col. 3. lines 2-7) . Applicant should note that the selection of the console is made by the consumer, the console mounting can be done at a retail establishment, at a regional warehouse, by an appliance dealer, at the purchaser's house, by a dealer representative (col. 2, lines 21-40).

***Response to Arguments***

4. Applicant's arguments with respect to claims 1 and 3-15 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
